

# SROVNÁNÍ DOSTUPNÝCH ŘEŠENÍ PRO REALIZACI E-LEARNINGOVÝCH KURZŮ

Ing. Zdeněk Brož, FP VUT v Brně, Kolejní 2906/4, 612 00 Brno, broz@fbm.vutbr.cz

## ANOTACE

*Theme of this paper is the research on key features of content management systems and course management systems. After the key features have been analyzed and identified it is necessary to find and compare major existing e-learning systems. Result of this research is a list of major commercial and non commercial solutions. Aim of this research is to analyze the most important general features of an e-learning system and to evaluate and compare major existing e-learning management systems. Goal is to create a list of generic rules that will help managers to select the right course management system for their organization. It is clear that environment in a particular organization has a significant influence on the decisions and will influence the hierarchy of key requirements.*
